ROAR's Welcome

ROAR Forklift and Equipment Training

We firmly believe that quality training is vital for all our clients and all our courses are developed with this in mind. As an RTITB Certified Company, we deliver the highest standard of training, providing continued support to trainees at every stage of the course.

We understand how to produce training programs that your staff will find relevant and easy to understand. Each course is structured so your staff can master a new skill at a pace that best suits their capabilities. Being seasoned experts in this field, we are able to deliver the highest level of training with enthusiasm. We ensure that all training programmes are kept up to date with changes in local legislation and best practices in the field.

Course Delivery and Instructor

Training will be delivered by our ROAR (RTITB Qualified) Instructor.

As communication is our priority, we offer courses in both English and Maltese.

Forklift Training

Experienced Training (1 Day)

Our **RTITB Forklift – Experienced Operator Course** is for existing operators with previous experience using a forklift truck but without formal training.

The **RTITB Experienced Forklift Course** will include theory instruction, followed by practical operator training and assessment in compliance with the HSE Code of Practice L117. This course enables the successfully trained operator to use any forklift (up to a 5000 kg lifting capacity) (with authorisation) globally.

The Counterbalance Forklift is the most common forklift in use today and is the workhorse for most materials handling operations.

Course Content and Summary

- **Course Duration:** 1 Day, from 4-6 hours (depending on number of trainees)
- **Delivery Method:** Classroom & Practical Training and Assessment
- **Prerequisite:** None
- **Awarding Body:** RTITB
- **Assessment:** Multiple Choice & Written Paper and Practical Skills Assessment
- **Certification:** Each successful delegate will receive an In-house RTITB Certificate of Training (*valid for three years*)

Refresher Training (½ Day)

Our **RTITB Forklift Training Course – Refresher** is only available for operators who have held certification in the past and wish to renew their license to operate a forklift.

The **RTITB Refresher Course** will include theory instruction, followed by practical operator training and assessment in compliance with the HSE Code of Practice L117. This course enables the successfully trained operator to use any forklift (up to a 5000 kg lifting capacity) (with authorisation) globally.

The Counterbalance Forklift is the most common forklift in use today and is the workhorse for most materials handling operations.

Course Content and Summary

- **Course Duration:** Half A Day, usually 4 hours (flexible)
- **Delivery Method:** Classroom & Practical Training and Assessment
- **Prerequisite:** None
- **Awarding Body:** RTITB
- **Assessment:** Multiple Choice & Written Paper and Practical Skills Assessment
- **Certification:** Each successful delegate will receive an In-house RTITB Certificate of Training (*valid for three years*)

Novice Training (1-2 Days)

The RTITB Forklift Training Course – Novice Operator is for operators with little or no previous experience using a forklift truck.

This RTITB Forklift Novice Course will include theory instruction, followed by practical operator training and assessment in compliance with the HSE Code of Practice L117. This course enables the successfully trained operator to use any forklift (up to a 5000 kg lifting capacity) (with authorisation) globally.

The Counterbalance Forklift is the most common forklift in use today and is the workhorse for most materials handling operations.

Course Content and Summary

- **Course Duration:** 1-2 Days, usually 12 hours (flexible)
- **Delivery Method:** Classroom & Practical Training and Assessment
- **Prerequisite:** None
- **Awarding Body:** RTITB
- **Assessment:** Multiple Choice & Written Paper and Practical Skills Assessment
- **Certification:** Each successful delegate will receive an in-house RTITB Certificate of Training (*valid for three years*)

What Will You Get From Our Forklift Courses?

Successful operators will have a better understanding of relevant legislation, best practice and refresh their skills. They will be able to safely operate a Fork Trucks (up to 5000kg capacity), in line with current approved methods and manufacturer's instructions.

Our course programmes include:

- Introduction to the lift truck to be used
- Pre-use inspection and take over maintenance
- Controls and instruments
- Weight assessment
- Starting, moving and stopping the truck
- Handling laden and unladen pallets
- Operation of hydraulic controls
- Stacking/de-stacking – free standing and in racking
- Safety code testing
- Practical test of basic operating skills
- Written test of operating knowledge
